Over 5.4 million babies killed in Planned Parenthood clinics

Planned Parenthood Is Hiding Something

HON. CHRIS SMITH OF NEW JERSEY
(*Excerpts*)

Mr. Speaker, in its slick TV ads and PR blitz, the billion-dollar-a-year abortion giant Planned Parenthood appears to be hiding something.

Could it be they are hiding the dismaying fact that just one organization—Planned Parenthood—today performs over 25 percent of all abortions in America? No other chain of abortion mills even comes close.

Or is it the fact that 97 percent of all so-called services rendered to a woman with child end in an abortion?

Or, the fact that since 1977 Planned Parenthood has deliberately caused the brutal death of well over 5.4 million babies.

And in 2009 alone, over 332,278 babies, were killed in Planned Parenthood clinics. (The death stats for 2010 and for the first four months of 2011 haven't been publicized yet.)

There is no organization in America, perhaps even on earth, that stabs, dismembers, decapitates, or chemically poisons more unborn children to death, than Planned Parenthood.

For the innocent and perhaps inconvenient child in the womb, a Planned Parenthood abortion clinic is a house of horrors – a place where abortionists brutally destroy unborn children and deceive and hurt their mothers.

Taxpayers shouldn't be coerced into subsidizing and giving hundreds of millions of dollars each year to Child Abuse Inc.
