**CONCURRENT RESOLUTION**

Recognizing the tenth anniversary of the Chornobyl nuclear disaster, and supporting the closing of the Chornobyl nuclear power plant.

Whereas April 26, 1996, marks the tenth anniversary of the Chornobyl nuclear disaster;

Whereas United Nations General Assembly resolution 50/134 declares April 26, 1996, as the International Day Commemorating the Tenth Anniversary of the Chornobyl Nuclear Power Plant Accident and encourages member states to commemorate this tragic event;

Whereas serious radiological, health, and socioeconomic consequences for the populations of Ukraine, Belarus, and Russia, as well as for the populations of other affected areas, have been identified since the disaster;

Whereas over 3,500,000 inhabitants of the affected areas, including over 1,000,000 children, were exposed to dangerously high levels of radiation;

Whereas the populations of the affected areas, especially children, have experienced significant increases in thyroid cancer, immune deficiency diseases, birth defects, and other conditions, and these trends have accelerated over the 10 years since the disaster;

Whereas the lives and health of people in the affected areas continue to be heavily burdened by the ongoing effects of the Chernobyl accident;

Whereas numerous charitable, humanitarian, and environmental organizations from the United States and the international community have committed to overcome the extensive consequences of the Chernobyl disaster;

Whereas the United States has sought to help the people of Ukraine through various forms of assistance;

Whereas humanitarian assistance and public health research into Chernobyl's consequences will be needed in the coming decades when the greatest number of latent health effects is expected to emerge;

Whereas on December 20, 1995, the Ukrainian Government, the governments of the G-7 countries, and the Commission of the European Communities signed a memorandum of understanding to support the decision of Ukraine to close the Chernobyl nuclear power plant by the year

2000 with adequate support from the G-7 countries and international financial institutions;

Whereas the United States strongly supports the closing of the Chernobyl nuclear power plant and improving nuclear safety in Ukraine; and

Whereas representatives of Ukraine, the G-7 countries, and international financial institutions will meet at least annually to monitor implementation of the program to close Chernobyl: Now, therefore, be it
